Why Choose a Dental Implant ?

The Ultimate Solution for Missing Teeth

Improve Oral Health, Improve Appearance, Improve Speech, Improve Comfort, Improve Self-esteem

*** Single Implants * Implant Bridges * Implant Dentures**

Dental implants provide great benefits they are one of the most significant advances in dentistry in recent years, and are the number one choice for replacing missing or damaged teeth from a single tooth to a complete set, for functional or aesthetic reasons. Dental Implants are the next best thing to your own natural teeth and provide many advantages.

White Dental Beauty,
our home whitening treatment
in 3-4 weeks**

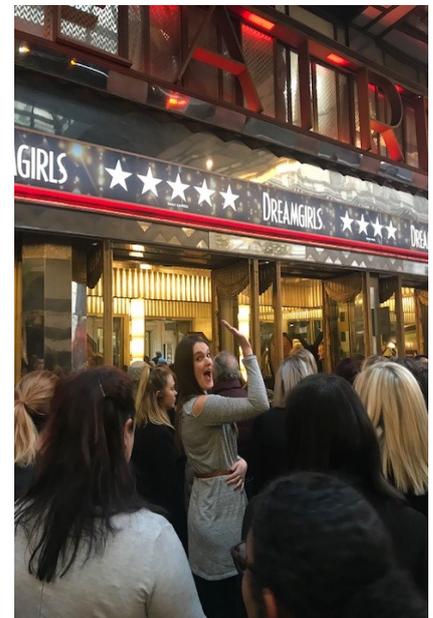

Smile TRU

What we have been up to.

The team all had a fantastic day out in London in December 2017, we had a trip up The Shard and luckily it was a very clear bright day, so we could take in all the views, we then had a very relaxing lunch at The Savoy followed by theatre show Dreamgirls!!

Why not ask us about our trip the next time you visit us, or share some of your adventures with us!
